

# KEL-FA split multi cable entry frames

for cables with connectors, tool-free assembly / IP54 / UL Type 12

The KEL-FA range is a compact system to route and seal pre-terminated cables as well as conduits or pneumatic hoses utilising KT series grommets. After populating the entry frame with grommets and cables, the cover is put on and the two clamping levers are locked with the lower part by pressing them down. The twist-proof construction of the KEL-FA enables intuitive assembly. Routing and sealing with IP54 / UL Type 12 for cable diameters from 1 to 35 mm.

The KEL-FA frames match exactly the cut-out dimensions for 10-, 16- and 24-pin standard industrial connectors. These KEL-FA frames can either be screw mounted or simply snapped into the KEL-SNAP frame.
